Trading is the conversion of one currency for another. In the case of crypto trading, one can buy or sell a digital currency for another, like Bitcoin or altcoin. Cryptocurrency is a digital currency in which encryption techniques are used to regulate the generation of units of currency and verify the transfer of funds, operating independently of a central bank. Trading crypto takes place 24 hours a day, 7 days a week.

The Foreign Exchange Market is a global decentralized market for the trading of fiat currencies. This market determines the foreign exchange rate. It includes all aspects of buying, selling and exchanging currencies at current or determined prices. It is one of the most actively traded markets in the world, with an average daily trading volume of \$5 trillion. Trading Forex takes place 24 hours, 5 days a week.
